

Maine Coordinated Entry System

Statewide Access Points

Our program is required to only accept referrals for housing resources through the new statewide Coordinated Entry System (CES). All referrals must be assessed and prioritized by the Hub where they reside, or are applying through.

We'd recommend that you reach out to the nearest access point in your area in order to be accessed and entered into the system.

Please note: some Access Points are only able to offer assessments for individuals that are already accessing their services. If you are already connected with one of the shelters or agencies below, please follow up with them to be assessed. If you are having trouble connecting with an Access Point to get assessed, please contact 211.

Maine Service Hubs cover different counties depending on location. Below is a list of Service Hubs and their respective

- Hub 1: York
- Hub 2: Cumberland
- Hub 3: Midcoast (Sagadahoc, Knox, Lincoln, Waldo, and Towns of Brunswick and Harpswell)
- Hub 4: Androscoggin
- Hub 5: Western: Oxford, Franklin, and Towns of Livermore and Livermore Falls
- Hub 6: Central: Somerset and Kennebec
- Hub 7: Penquis: Penobscot and Piscataquis
- Hub 8: Downeast: Washington and Hancock
- Hub 9: Aroostook

Once accessed, the individual's name will go on a regional by-name prioritization list, and as resources become available, the HUB will refer those individuals with the highest need to our program. Once referenced, you will be guided to fill out the application. Until that happens, please do not submit an application as we will be unable to process it.
